

# SOLARIZE

## Is your roof asking for solar?

Our community is partnering with the Greater Cincinnati Energy Alliance to offer homeowners a Free Solar Assessment. This FREE report can tell you if your roof is a good fit for solar, how much an installation will likely cost, what discounts and tax credits you are eligible for, and how much money you could save off your electric bill if you install solar.

**73%**

The cost of solar installation dropped 73% in the last 10 years.

**95%**

The Solar market grew 95% in 2016,

**3rd**

The U.S. is 3rd in the world for solar installations.

## Benefits

By bringing residents together to purchase solar panels, Solarize is able to tap into the power of volume discounts to drive down costs.

Help make your community a leader in solar energy.

When combined with the 30% federal residential energy tax credit, installing solar becomes even more affordable.

Aligns with social responsibility and sustainability.

## Steps/User Experience

### 1 Free Assessment

Report created using satellite imagery that details your home's solar potential as well as the estimated costs and benefits of a solar PV-system.

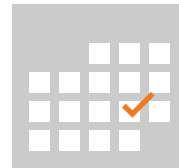

### 2 Get your questions answered

We are a nonprofit helping homeowners find the right solar fit for their home, ask us questions, share your unique situation, or get a referral to a trusted contractor.

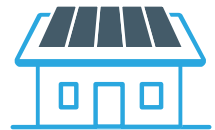

### 3 Decide if solar is right for you

Receive a quote and decide if you want to proceed. Solarize offers high quality solar equipment at below-market rate pricing.

### 4 Installation

Installer will obtain all necessary permits, order materials and equipment, and schedule the installation.

### 5 Support

Installers in the Solarize network will provide ongoing support in the months ahead to ensure that your system continues to perform at its peak capacity.
