The course provides hands-on practice in lifesaving techniques to young teens who are home alone, watching younger siblings, or babysitting so they are equipped with the skills and confidence to act in an emergency. They learn basic first aid and infant and child choking rescue and **CPR**. Students also receive instruction on how a child's age affects how to care for them, how to prevent problem behavior, and how to run their own babysitting business.

Students who graduate from a Safe Sitter® course receive a completion card demonstrating that they know how to use their skills in situations they encounter.
